

About the company

QploX is a fast growing company offering test and automation engineering. Headquartered in Leuven, our clients are major multinational enterprises and local companies from automotive, semiconductors, RF, consumer electronics.... Our consultancy department offers services in RF, semiconductors and electronics design and test. Our Test automation group offers a one stop shop for design of test benches, system integration production and lab automation solutions.

Job Description

- We are looking for Test automation engineers with solid experience in Labview and NI technologies. Desirable Teststand, Labwindows and NI hardware proprietary technology.
 - Several positions need to be filled in Netherlands (aerospatial), Belgium(Antwerpen-Electronics) and Spain (Barcelona-Automotive)
 - The test automation engineer will develop test benches and software for existing automated test benches. The different sectors will require slightly different complementary skills, but generally a proficient knowledge of Labview development would be desired.
-

Candidate Description

- Proficient in LabView with more than 5 years of experience in development of test benches or software
 - Experience with Teststand or Labwindows is an asset.
 - Experience with NI proprietary hardware (CRio, FPGA, DAQ, PXI etc).
 - Experience in one of this 3 fields:
 1. Automotive. Knowledge of CAN, LIN, FlexRay, ISO-TP, Automotive standards, Automotive interfaces
 2. Aerospace. Experience in test or qualification of Aerspatial products
 3. Industrial production → Experience with conceptual design of test benches for end of line test
 - Knowledge of popular communication protocols in the automotive industry (CAN, LIN,...)
 - Being able to understand hardware on a block level is definitely an asset
 - Able to select the required hardware for a project based on early specifications
 - Excellent communication, presentation and documentation skills in English.
 - Knowledge of version control systems is desired (SVN, Git)
 - Willing to relocate and availability for short travels abroad.
-

We offer

An attractive salary package with extra-legal benefits. A high tech, multicultural and young ambient. A fast track in a growing company. Formation in multidisciplinary environment plenty of learning opportunities.
