

Specialist Consultant in EU Charging Regulations

About the company

QploX is a dynamic and fast-growing company specializing in test and automation engineering, where we are seeking a seasoned expert in European charging standards with deep knowledge in both wireless and wired technologies. The successful candidate will provide strategic insights, contribute to the development and promotion of charging standards, and foster collaborations within the industry.

Job Description

Key Responsibilities:

- Analyses European charging standards, policies, and industry trends. Produce insightful reports and provide real-time business analysis to the Consumer BG Standards & Patent Department.
- Represent CBG in European and international charging standard bodies (such as ITU/ISO/IEC, ETSI, NFC Forum, Airfuel, WPC, USB-IF, etc.), advocating for the innovation and evolution of charging standards aligned with business needs and strategic goals. Share updates internally and develop timely follow-up strategies.
- Collaborate closely with the Consumer BG Standards & Patent Dept, Device Hardware Platform Technology Dept, and the CBG European Product Departments. Build and maintain relationships with key partners in the European charging industry to promote standard industry practices and business cooperation. Support the international launch and adoption of charging products based on innovative protocol standards.

Location: Netherlands and Belgium

Qualifications:

- Advanced degree (master's or higher) in Communications, Electronics, or a related field.
 - Over 10 years of experience in the international charging industry, with significant involvement in key industry initiatives.
 - Extensive experience in international charging standards, having led initiatives from proposal through to finalization.
 - Strong analytical skills with the ability to produce high-quality industry reports.
 - Excellent communication and collaboration skills, with proficiency in English as the primary working language.
-

We Offer

- An attractive salary package with extra benefits. A high tech, multicultural and young ambient. A fast track in a growing company. Formation in multidisciplinary environment plenty of learning opportunities.
- We provide the flexibility to work both from our office premises and remotely from home.
