## Job Description

---

In this role, you will manage the planning and execution of multiple concurrent experiments for both internal and external clients. This includes coordinating the scheduling of wafers, materials, masks, and tools as well as arranging contingency tools at alternative locations when needed. You will also oversee the efficient and timely shipping of goods between facilities, ensuring all project timelines are met. This position requires strong communication and organizational skills to align priorities in between facilities, as well as a proactive approach to improving workflows and processes.

### Key Responsibilities

- Coordinate the planning and execution of multiple simultaneous experiments.
- Schedule all required wafers, materials, masks, and tools at alternative locations when required with backup arrangements.
- Ensure on-time shipping of materials and equipment between facilities.
- Support decision-making by providing detailed scheduling information and working with stakeholders to align on project priorities and deadlines.
- Identify opportunities to improve efficiency and propose new systems or better ways of working.

Location: The Netherlands. Occasionally a visit to Leuven can be requested.

---

## Candidate Qualification

---

- You obtained a master's degree in supply chain management, or a related discipline.
- Proficient in MS Office and planning software, with experience in data analysis.
- Strong communication and presentation skills, with fluency in spoken and written English.
- You can work on your own, you are flexible and pro-active, and service driven.
- Industry experience is a plus.

---

## Benefits

---

- This position offers a unique opportunity to work in a dynamic, fast-paced environment, driving efficiency and innovation in high-tech experimental planning.
-

- 
- Competitive salary and benefits package.
  - Opportunities for professional growth and development.
  - Collaborative and innovative work environment.
  - Flexible working hours and remote work options.
  - Plenty of learning opportunities.
